

**PRBS ACTIVITIES REPORTING TO THE WORKING GROUP
CIS 2005/2006**

DATE:

NAME OF THE PRB: DUERO PILOT RIVER BASIN - SPAIN

PRB LEADER:	<i>NAME:</i>	Víctor M. Arqued Esquía (main leader) Javier Fernández Pereira (deputy) Raquel Miguel Sauco (deputy)
	<i>ADDRESS:</i>	Muro, 5. Valladolid. E-47.004 Spain
	<i>EMAIL ADDRESS:</i>	oph@chduero.es // raquelmi@unizar.es
	<i>PHONE NUMBER</i>	+34 983 215 405
	<i>FAX NUMBER</i>	+34 986 215 466

1. PLEASE PROVIDE A BRIEF SUMMARY OF THE ACTIVITIES OF THE PRB FOR THE YEAR 2005:

Duero River Basin has been involved in CIS phase II since October 2005, and now it is working in the formalisation of this participation according to the Spanish Ministry of Environment. Attendance to several meetings and workshops, since October 2005.
Review and comments on Commission documents.
Mirror activities. We have transferred the information created in these WG to the other Spanish river basins and we have gathered information from the Spanish river basins in order to improve our comments about the guidance documents.
On top of this, we are preparing a national project that aims to assure the reporting to WISE according to INSPIRE principles.

**1. Specific activities of the PRB in the Working Group A - Ecological Status
(PRBs expressing interest: JIU, ODENSE, ZAGYVA-TARNA):**

2. Specific activities of the PRB in the Working Group B - Integrated River Basin Management (IRBM)

(PRBs expressing interest: CECINA, GASCOGNE, HARJU, ISERE AMONT, JUCAR, KRKA, MARNE, NEISSE, ODENSE, OULUJOKI, PINIOS, SCHELDT, SULDAL, TEVERE, ZAGYVA-TARNA):

3. Specific activities of the PRB in the Working Group C - Groundwater

(PRBs expressing interest: NEISSE, TEVERE, PINIOS, ZAGYVA-TARNA):

4. Specific activities of the PRB in the Working Group D - Reporting

(PRBs expressing interest: EBRO, **DUERO**, JULI, NEISSE, ODENSE, SULDAL, TEVERE, ZAGYVA-TARNA):

Attendance to:

- Joint workshop on reporting for the WFD and UWWTD (20-21/10/2005)
- 4th workshop on Common GIS Reporting for WISE (22/11/2005)
- WISE End-User workshop (15-16/12/2005)

Review and comments on Commission documents:

- Guidance on 2007 reporting on monitoring
- Guidance on 2010 reporting on RBMP (first draft)

Besides, we are preparing a national project that aims to assure the reporting to WISE according to INSPIRE principles.

5. Specific activities of the PRB in the Working Group E - Priority Substance
(PRBs expressing interest: ODENSE, ZAGYVA-TARNA):

--

6. Specific activities of the PRB in the Strategic Steering Group WFD and Agriculture
(PRBs expressing interest: GUADALQUIVIR, GASCOGNE, NEISSE, ODENSE, PANDIVERE, PINIOS, RIBBLE, WESER, ZAGYVA-TARNA):

--

7. Specific activities of the PRB in the Expert Advisory Forum “Flood Protection”
(PRBs expressing interest: NEISSE, TEVERE):

--

8. Specific activities of the PRB in the Hydromorphology Group

(PRBs expressing interest: RHONE, SULDAL):

9. PLEASE PROVIDE A BRIEF SUMMARY OF THE PLANNED ACTIVITIES OF THE PRB FOR THE YEAR 2006 (PROVIDE AT LEAST ONE SENTENCE PER WG WITH WHICH YOU ARE COLLABORATING):

- Contribute to develop and to draft guidance documents for the transmission and processing of information and data gathered under the WFD, with main interest in the guidance on sheets for RBMP reporting.
- To develop relevant and useful tools to facilitate and improve the electronic reporting of Spanish information to the WISE system. Now, Duero River Basin Authority is involved in building up both: a WFD data bank and a spatial data infrastructure node according to the principles of INSPIRE as reference for a national system which could be developed and used to check transmissions and interoperable procedures with WISE.
- To check GIS and WISE tools made for EC, through JRC, WRc and others, with the target of helping the reporting process.

10. PLEASE DESCRIBE YOUR EXPERIENCE WITHIN THE WGS (DEGREE OF FEEDBACK SO FAR, EXPECTATIONS FOR THE COMING PERIOD; PLEASE COMMENT ON BOTH POSITIVE AND NEGATIVE ASPECTS OF THE EXCHANGE BETWEEN PRB AND WG):

As an idea for improvement, the current meetings could be used to create small groups for specific topics, such as the guidance for the RBMP, the communication to WISE through the Spatial Data Infrastructure nodes, etc. so that the small group could build up closer working relationships. Duero River Basin is interested in participating in both items and opened to join others that may come up.
